Little Big Boubo Beatrice Alemagna,2015-05-05 Boubo's eager to show that he's not a baby anymore: he knows he's on his way to being a big kid and is proud to demonstrate his new-found abilities to prove his case.

The Story of Pinocchio Katie Daynes,2011 'Only good sons have the chance of becoming real boys', warns the wise cricket. But, try as he might, Pinocchio the puppet just can't stay out of trouble. Treasure hunts, false friends and funfairs lead him far from his poor, lonely father. Is Pinocchio doomed to be wooden forever?

Pinocchio, the Tale of a Puppet Carlo Collodi,2011-02 Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy.As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, Don't strike me too hard! Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy.Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

Inky Fingers Anthony Grafton,2020-06-09 An Open Letters Review Best Book of the Year “Grafton presents largely unfamiliar material...in a clear, even breezy style...Erudite.” —Michael Dirda, Washington Post In this celebration of bookmaking in all its messy and intricate detail, Anthony Grafton captures both the physical and mental labors that went into the golden age of the book—compiling notebooks, copying and correcting proofs, preparing copy—and shows us how scribes and scholars shaped influential treatises and forgeries. Inky Fingers ranges widely, from the theological polemics of the early days of printing to the pathbreaking works of Jean Mabillon and Baruch Spinoza. Grafton draws new connections between humanistic traditions and intellectual innovations, textual learning and the delicate, arduous, error-riddled craft of making books. Through it all, he reminds us that the life of the mind depends on the work of the hands, and the nitty gritty labor of printmakers has had a profound impact on the history of ideas. “Describes magnificent achievements, storms of controversy, and sometimes the pure devilment of scholars and printers...Captivating and often amusing.” —Wall Street Journal “Ideas, in

this vivid telling, emerge not just from minds but from hands, not to mention the biceps that crank a press or heft a ream of paper.” —New York Review of Books “Grafton upends idealized understandings of early modern scholarship and blurs distinctions between the physical and mental labor that made the remarkable works of this period possible.” —Christine Jacobson, Book Post “Scholarship is a kind of heroism in Grafton’s account, his nine protagonists’ aching backs and tired eyes evidence of their valiant dedication to the pursuit of knowledge.” —London Review of Books

Inscribing Knowledge in the Medieval Book Rosalind Brown-Grant, Patrizia Carmassi, Gisela Drossbach, Anne D. Hedeman, Victoria Turner, Iolanda Ventura, 2020-01-20 This collection of essays examines how the paratextual apparatus of medieval manuscripts both inscribes and expresses power relations between the producers and consumers of knowledge in this important period of intellectual history. It seeks to define which paratextual features - annotations, commentaries, corrections, glosses, images, prologues, rubrics, and titles - are common to manuscripts from different branches of medieval knowledge and how they function in any particular discipline. It reveals how these visual expressions of power that organize and compile thought on the written page are consciously applied, negotiated or resisted by authors, scribes, artists, patrons and readers. This collection, which brings together scholars from the history of the book, law, science, medicine, literature, art, philosophy and music, interrogates the role played by paratexts in establishing authority, constructing bodies of knowledge, promoting education, shaping reader response, and preserving or subverting tradition in medieval manuscript culture.

Writing and Performing Female Identity in Italian Culture Virginia Picchietti, Laura A. Salsini, 2017-01-28 This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as

prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

The Shawl Cynthia Ozick,2012-07-05 Two masterful short stories: one depicts the horrors of the Holocaust, the other the lifetime of emptiness that pursues a 'survivor' - by a Pulitzer Prize finalist *The Shawl* is considered a modern classic - a masterpiece in two acts. The horror and desolation evoked through piercing imagery - first through the abomination of a Holocaust concentration camp murder, second through the eyes of the murdered child's mother, thirty years later, now 'a madwoman and a scavenger' - offers the reader a chilling insight into the empty suffering of a 'survivor'. In 'The Shawl', a woman named Rosa Lublin watches a concentration camp guard murder her child, a child barely old enough to walk. The shawl that was the child's security blanket and lone possession reappears in the second story, 'Rosa'. Rosa appears thirty years later, living in a Miami hotel and feeling the strain of a lifetime of pain: the hollowness of seeing her baby killed, of managing her harrowing memories she's being told to forget, and of even now being treated as a specimen and not a human being.

Images of Plague and Pestilence Christine M. Boeckl,2000-12-01 Since the late fourteenth century, European artists created an extensive body of images, in paintings, prints, drawings, sculptures, and other media, about the horrors of disease and death, as well as hope and salvation. This interdisciplinary study on disease in metaphysical context is the first general

overview of plague art written from an art-historical standpoint. The book selects masterpieces created by Raphael, Titian, Tintoretto, Rubens, Van Dyck, and Poussin, and includes minor works dating from the fourteenth to twentieth centuries. It highlights the most important innovative artistic works that originated during the Renaissance and the Catholic Reformation. This study of the changing iconographic patterns and their iconological interpretations opens a window to the past.
